25X1 9. (Confidential - LLM) Robert Horner, Chief Investigator, House Internal Security Committee, asked if [REDACTED] was in a position to appear before the Committee in open session to provide testimony along the lines earlier provided in a staff interview. I explained that in the past such appearances had been in executive session with publication following our review. He restated the Committee's position that from their standpoint open hearing was preferable and assured that they would abide by all of our instructions and would confine their questioning to elicit the material already provided by [REDACTED] in the staff interview, with such deletions as we suggest. In response to my question, he said that [REDACTED] would not be the lead-off witness, that they contemplated a series of hearings, and that he would provide me with the names of the witnesses lined up to date if I would drop by his office. 12. (Internal Use Only - LLM) Met with Carol Mitchell, Case Worker in the office of Senator Robert P. Griffin (R., Mich.), concerning the inquiry of [redacted] who is interested in employment as a CIA mercenary as reported in the 13 April issue of Newsweek. I told her we were not engaged in the recruitment spelled out in the story. She said they had many similar inquiries from servicemen in Saigon and I told her we had received a large number also. In response to her question, I said I don't know which other agency may be doing the recruiting and her question may well be attributing to the story accuracy which does not exist.
